CARLOT UNLOADS OF CERTAIN FRUITS AND VEGETABLES
IN 100 CITIES AND IMPORTS IN 5 CITIES FOR CANADA

CALENDAR YEAR 1952

Washington, D. C.

March 1953

Commodities reported in this summary, with abbreviations used in the tables, are outlined below. Actual origin state reference was obtained, when possible, on reshipments and shipments out of storage. Most shipments of Illinois mixed vegetables unloaded at cities in the middle West were reshipments from Chicago, having been reloaded from inbound carlots from various states.

Mixed cars were classified as the commodity comprising at least ninety percent of the load where such was the case. When no single commodity comprised as much as ninety percent, such cars were classified in the proper mixed classification; e. g., mixed citrus fruit, mixed vegetables, etc. Some divergence from this ninety percent rule may be expected in view of large number of transportation employees involved in preparation of the reports.

In the case of certain imported fruits, the sum of unloads exceeds imports shown in shipment summaries. This is due to all boat receipts at New York City being shown as unloads, notwithstanding the fact some carlots may be subsequently shipped to interior cities.

Monthly totals of unloads of commodities, other than those regularly reported for "100 cities", are shown on the Tables by Months for cities where F. & V. Market News Offices are located. Likewise, other commodities received by truck are shown for the cities where truck receipts are reported. The truck receipts reported in this summary do not necessarily represent total movement of the commodities in question to the markets reported. At most of the cities reported it is estimated the truck movement shown represents 75 to 95 percent of the total receipts in Commercial Wholesale Channels.

The unloads reported for the 5 Canadian cities were furnished through the courtesy of the Canadian Department of Agriculture. These unload data include receipts by boat at some markets which were converted by that Department to carlot equivalents.

Special tables outlining distribution in 100 U. S. and 5 Canadian Cities for each commodity classification reported in this summary are also included. See index below.

Cooperation on the part of Railroad, Express and Steamship agents in furnishing specific information for these reports is hereby gratefully acknowledged.

LIST OF COMMODITIES WITH ABBREVIATIONS USED

Apples	- Apls.	Celery	- Cely.	Lettuce ^{2/}	- Lett.	Oranges ^{3/}	- Orgs.	Plums ^{4/}	- Plums	Tangerines	- Tang.

CARLOT UNLOADS OF CERTAIN FRUITS AND VEGETABLES
IN 100 U. S. AND 5 CANADIAN CITIES,
AND
TRUCK UNLOADS IN 20 U. S. CITIES

CALENDAR YEAR 1953

Washington, D. C.
March 1954

PREFACE

A list of commodities reported in this summary, with abbreviations used in the tables, is given on page 1. The usual State of origin was obtained, when possible, on reshipments and shipments out of storage. Most Illinois fresh vegetables unloaded at cities in the Middle West were reshipments from Chicago, having been reloaded from round carlots originating in various States. Mixed cars containing as much as 90 percent of one commodity were classified under the name of that commodity. When no single commodity comprised as much as 90 percent, cars were classified in the proper mixed category; for example, mixed citrus fruit, mixed vegetables. Some divergence from this 90 percent rule may be expected in view of large number of transportation employees involved in preparation of the reports.

The sum of unloads exceeds imports of certain imported fruits shown in shipment summaries. This is because all boat receipts at New York City are shown as unloads, notwithstanding the fact some carlots may be subsequently shipped to interior cities.

Truck unloads, expressed in carlot equivalents, of these 21 commodities are reported for 20 U. S. cities. Trucks ordinarily handling fresh fruits and vegetables are not required by law to maintain complete records of tonnage handled as is required of common carriers. Therefore, it is impossible to obtain as complete reports of truck unloads as is possible with respect to rail and boat movement. Estimated percentage of completeness of truck unloads is shown on each city report. These estimates take into consideration movement in wholesale commercial channels, including chain stores and farmers' markets. Truck unloads reported as "Unknown" under State of origin largely represent quantities repacked en route, actual State of production not being available.

Monthly totals of rail unloads for commodities, other than those regularly reported for "100 cities", are shown in the tables by months for cities where F. & V. Market News Offices are located. Likewise, other commodities received by truck are shown for the cities where truck receipts are reported.

Special tables outlining rail and boat distribution in 100 U. S. and 5 Canadian cities, as well as motortruck distribution in 20 cities, for each commodity classification reported in this summary are included. See index on page 1.

The unloads reported for the 5 Canadian cities were furnished through the courtesy of the Canadian Department of Agriculture. Receipts by boat at some markets, which were converted by that Department to carlot equivalents, are included.

Cooperation on the part of railroad, express, and steamship agents, and officials of State departments of agriculture and farmers' markets in furnishing information, as well as members of the produce industry in furnishing records of motortruck movement, is hereby gratefully acknowledged.

**CARLOT UNLOADS OF CERTAIN FRUITS AND VEGETABLES
IN 100 U. S. AND 5 CANADIAN CITIES,
ALSO
TRUCK UNLOADS IN 20 U. S. CITIES**

CALENDAR YEAR 1954

THE LIBRARY OF THE
JUN 17 1955
UNIVERSITY OF ILLINOIS

AMS-25

Washington, D. C.

April 1955

PREFACE

A list of commodities reported in this summary, with abbreviations used in the tables, is given on page 1. The actual State of origin was obtained, when possible, on reshipments and shipments out of storage. Most Illinois mixed vegetables unloaded at cities in the Middle West were reshipments from Chicago, having been reloaded from inbound carlots originating in various States. Mixed cars containing as much as 90 percent of one commodity were classified under the name of that commodity. When no single commodity comprised as much as 90 percent, cars were classified in the proper mixed category; for example, mixed citrus fruit, mixed vegetables. Some divergence from this 90 percent rule may be expected in view of large number of transportation employees involved in preparation of the reports.

The sum of unloads exceeds imports of certain imported fruits shown in shipment summaries. This is because all boat receipts at New York City are shown as unloads, notwithstanding the fact some carlots may be subsequently shipped to interior cities.

Truck unloads, expressed in carlot equivalents, of these 21 commodities are reported for 21 U. S. cities. Trucks ordinarily handling fresh fruits and vegetables are not required by law to maintain complete records of tonnage handled as is required of common carriers. Therefore, it is impossible to obtain as complete reports of truck unloads as is possible with respect to rail and boat movement. Estimated percentage of completeness of truck unloads is shown on each city report. These estimates take into consideration movement in wholesale commercial channels, including chain stores and farmers' markets. Truck unloads reported as "Unknown" under State of origin largely represent quantities repacked en route, actual State of production not being available.

Monthly totals of rail unloads for commodities, other than those regularly reported for "100 cities," are shown in the tables by months for cities where F. & V. Market News Offices are located. Likewise, other commodities received by truck are shown for the cities where truck receipts are reported.

Special tables outlining rail and boat distribution in 100 U. S. and 5 Canadian cities, as well as motortruck distribution in 21 cities, for each commodity classification reported in this summary are included. See index on page 1.

The unloads reported for the 5 Canadian cities were furnished through the courtesy of the Canadian Department of Agriculture. Receipts by boat at some markets, which were converted by that Department to carlot equivalents, are included.

Cooperation on the part of railroad, express and steamship agents, and officials of State departments of agriculture and farmers' markets in furnishing information, as well as members of the produce industry in furnishing records of motortruck movement, is hereby gratefully acknowledged.

LIST OF COMMODITIES WITH ABBREVIATIONS USED

Table with 10 columns listing commodity abbreviations and their full names. Commodities include Apples, Cabbage, Cantaloupe, Carrots, Celery, Grapefruit, Grapes, Lemons, Lettuce, Mixed Citrus Fruit, Mixed Vegetables, Onions, Oranges, Peaches, Pears, Plums, Potatoes, Sweetpotatoes, Tangerines, Tomatoes, and Watermelons.

1/ Includes Casabas, Honey Balls, Honey Dews, Persians and mixed melons of these classes.

2/ Includes Romaine. 3/ Includes Satsumas. 4/ Includes fresh Primes.

U. S. CITIES

Table of U.S. cities with page numbers for each. Lists 33 cities including Akron, Albany, Altoona, Amarillo, Atlanta, Baltimore, Beaumont, Birmingham, Boston, Bridgeport, Buffalo, Butte, Charleston, Charlotte, Chattanooga, Chicago, Cincinnati, Cleveland, Columbia, Columbus, Dallas, Davenport, Dayton, Decatur, Denver, Des Moines, Detroit, Duluth, El Paso, Evansville, Flint, Fort Wayne, Fort Worth, Grand Rapids, Hartford, Houston, Huntington, Indianapolis, Jackson, Jacksonville, Kansas City, Knoxville, Lexington, Lincoln, Little Rock, Los Angeles, Louisville, Madison, Miami, Milwaukee, Minneapolis-St. Paul, Mobile, Montgomery, Nashville, Newark, New Haven, New Orleans, New York, Norfolk, Oakland, Oklahoma City, Omaha, Peoria, Philadelphia, Phoenix, Pittsburgh, Portland, Providence, Raleigh, Richmond, Roanoke, Rochester, St. Louis, Salt Lake City, San Antonio, San Diego, San Francisco, Saranton, Seattle, Shreveport, Sioux City, Sioux Falls, South Bend, Spokane, Springfield, Syracuse, Tacoma, Tampa, Terre Haute, Toledo, Topeka, Tulsa, Washington, Wichita, Wilkes-Barre, and Youngstown.

CANADIAN CITIES

Table of Canadian cities with page numbers. Lists Montreal, Ottawa, Toronto, Vancouver, and Winnipeg.

CONDENSED COMMODITY DISTRIBUTION TABLES

Table showing condensed commodity distribution tables. Lists commodities like Apples, Cabbage, Cantaloupe, Carrots, Celery, Grapefruit, Grapes, Lemons, Lettuce, Mixed Citrus Fruit, Mixed Vegetables, Onions, Oranges, Peaches, Pears, Plums, Potatoes, Sweetpotatoes, Tangerines, Tomatoes, and Watermelons with their respective codes.

SUMMARY BY CITIES AND MONTHS OF TRUCK UNLOADS OF CERTAIN FRUITS AND VEGETABLES IN 21 CITIES DURING 1954

Large table showing truck unloads of certain fruits and vegetables in 21 cities during 1954. Columns include City, months (JAN-DEC), 1954 TOTAL, 1955 TOTAL, and 1952 TOTAL. Includes a final TOTAL row. Handwritten number '19.557' is visible on the left side of the table.

SUMMARY BY CITIES AND COMMODITIES OF UNLOADS OF CERTAIN FRUITS AND VEGETABLES IN 100 CITIES DURING 1954

Table with columns: CITY, APLS., CABGE., CANT., CARR., CELY., GRFT., GRPS., LEMS., LETT., MCIT., MVEG., ONS., ORGS., PCHS., PEARS., PLUMS., POTS., SWPOT., TANG., TOMS., WMEL., TOTAL. Lists 100 cities and their respective commodity unloads.

1/ Includes straight and mixed cans of Honey Dews, Persiana and Other Melons, except watermelons.

2/ Includes Romaine. 3/ Includes Satsumas. 4/ Includes fresh Prunes.

PREFACE

Commodities reported in this summary, with abbreviations used in the tables, are shown on next page. The actual State of origin was obtained, when possible, on reshipments and shipments out of storage. Most Illinois mixed vegetables unloaded at cities in the Middle West were reshipments from Chicago, having been reloaded from inbound carlots originating in various States. Mixed cars containing as much as 90 percent of one commodity were classified under the name of that commodity. When no single commodity comprised as much as 90 percent, cars were classified in the proper mixed category; for example, mixed citrus fruit, mixed vegetables. Some divergence from this 90 percent rule may be expected in view of large number of transportation employees involved in preparation of the reports.

The sum of unloads exceeds imports of certain imported fruits shown in shipment summaries. This is because all boat receipts at New York City are shown as unloads, notwithstanding the fact some carlots may be subsequently shipped to interior cities.

Truck unloads, expressed in carlot equivalents, of these 21 commodities are reported for 22 U. S. cities. Trucks ordinarily handling fresh fruits and vegetables are not required by law to maintain complete records of tonnage handled as is required of common carriers. Therefore, it is impossible to obtain as complete reports of truck unloads as is possible with respect to rail and boat movement. Estimated percentage of completeness of truck unloads is shown on each city report. These estimates take into consideration movement in wholesale commercial channels, including chain stores and farmers' markets. Truck unloads reported as "Unknown" under State of origin largely represent quantities repacked en route, actual State of production not being available.

Monthly totals of rail unloads for commodities, other than those regularly reported for "100 cities," are shown in the tables by months for cities where F. & V. Market News Offices are located. Likewise, other commodities received by truck are shown for the cities where truck receipts are reported.

Special tables outlining rail and boat distribution in 100 U. S. and 5 Canadian cities, as well as motortruck distribution in 22 cities, for each commodity classification reported in this summary are included. See index on next page.

The unloads reported for the 5 Canadian cities were furnished through the courtesy of the Canadian Department of Agriculture. Receipts by boat at some markets, which were converted by that Department to carlot equivalents, are included.

Cooperation on the part of railroad, express and steamship agents, and officials of State departments of agriculture and farmers' markets in furnishing information, as well as members of the produce industry in furnishing records of motortruck movement, is hereby gratefully acknowledged.
